

The sequence in which the project report material should be arranged and bound should be as follows

1. Cover Page
2. Title Page
3. Declaration by the Candidate
4. Certificate
5. Certificate by External Guide (Applicable for students doing project outside VIT)
6. Abstract
7. Acknowledgement
8. Table of Contents
9. List of Tables
10. List of Figures
11. List of Symbols, Abbreviations and Nomenclature
12. Chapters of the Report
13. Conclusion & Future Work
14. References-APA FORMAT
15. Appendices

Page Dimension and Binding Specifications

The dimension of the project report should be in A4 size.

Page Specification

Left Margin	: 3.81 cm
Right Margin	: 2.54 cm
Top Margin	: 2.54 cm
Bottom Margin	: 2.54 cm

The project report should be bound using flexible cover with below mentioned colored **art paper**. The cover should be printed in black letters and the text for printing should be identical.

Color of Art Paper	Total Number of Pages in the Report
White	Mini. of 60 - Max of 100

Page numbers

All text pages as well as program source code listings should be numbered using Arabic numerals at the **bottom center** of the pages.

Font

Times New Roman 12pt font should be used consistently throughout the text. Captions for tables and figures can be in smaller fonts, but not smaller than 10pt.

Paragraphs

No paragraph should have its opening line at the bottom of a page. A clear, consistent, but not too large a separation must be provided between the paragraphs throughout the thesis.

Headings

Chapter Heading – Font Size: 16, Bold, Times New Roman

Section Heading – Font Size: 14, Times New Roman, CAPS

Subsection Heading – Font Size: 12, Times New Roman, CAPS

Line spacing

The line spacing used should be the same throughout the text, and can be chosen to be between one and a half. The lines in captions for figures and tables, Table of Contents, List of Figures, and List of Tables can be single spaced, if desired.

DECLARATION

<Times New Roman, Font 14, Underlined, Bold, CAPS>

I here by declare that the thesis entitled “TITLE OF THE PROJECT ” submitted by me, for the award of the degree of Specify the name of the degree VIT is a record of bonafide work carried out by me under the supervision of Guide Name

I further declare that the work reported in this thesis has not been submitted and will not be submitted, either in part or in full, for the award of any other degree or diploma in this institute or any other institute or university.

CERTIFICATE

This is to certify that the Senior Design Project titled “**VEHICLE SERVICE MANAGEMENT AND LIVE MONITORING SYSTEM**” that is being submitted by **XXXX (17BECXXXX)** is in partial fulfillment of the requirements for the award of Bachelor of Technology, is a record of bonafide work done under my guidance. The contents of this Project work, in full or in parts, have neither been taken from any other source nor have been submitted to any other Institute or University for award of any degree or diploma and the same is certified.

ABSTRACT

<Times New Roman, Font 14, Underlined, Bold, CAPS>

Electronic Business offers innovative ways of doing business through Internet. Internet revolution has introduced number of advanced technologies to access organizations all over the world in an efficient but simple manner. Internet traffic is increasing exponentially as a result of wireless access, mobile computing and other innovative communication technologies.

<Times New Roman, Font 12>

ACKNOWLEDGEMENT

<Times New Roman, Font 14, Underlined, Bold, CAPS>

It is my pleasure to express with deep sense of gratitude to <Guide name>, <Designation, School name, VIT-AP>, for his/her constant guidance, continual encouragement, understanding; more than all, he taught me patience in my endeavor. My association with him / her is not confined to academics only, but it is a great opportunity on my part of work with an intellectual and expert in the field of <area>.

I would like to express my gratitude to <Chancellor>, <VPs>, <VC>, and <Dean Name>, <School Name>, for providing with an environment to work in and for his inspiration during the tenure of the course.

In jubilant mood I express ingeniously my whole-hearted thanks to <Program char-name>. <Program Chair designation>, all teaching staff and members working as limbs of our university for their not-self-centered enthusiasm coupled with timely encouragements showered on me with zeal, which prompted the acquirement of the requisite knowledge to finalize my course study successfully. I would like to thank my parents for their support.

It is indeed a pleasure to thank my friends who persuaded and encouraged me to take up and complete this task. At last but not least, I express my gratitude and appreciation to all those who have helped me directly or indirectly toward the successful completion of this project.

Chapter 1

<Times New Roman, Font 12, Bold>

Introduction

<Times New Roman, Font 16, Bold>

1.1 E – BUSINESS <Times New Roman, Font 14, CAPS>

Electronic business (e-business) refers the use of Internet for doing business. At its most developed level, e-business aims to reduce costs and improve efficiencies by integrating business systems and eliminating duplication of efforts, thereby achieving more with fewer resources and for lesser cost.

<Times New Roman, Font 12>

1.1.1 ADVANTAGES OF E-BUSINESS <Times New Roman, Font 12, CAPS>

The advent of Internet revolution has given rise to new techniques and models of doing business electronically that break space and time limitations.

Chapter n

< Times New Roman, Font 12, Bold>

Conclusion & Future Work

< Times New Roman, Font 16, Bold>

This chapter should summarize the key aspects of your project (failures as well as successes) and should state the conclusions you have been able to draw. Outline what you would do if given more time (future work). Try to pinpoint any insights your project uncovered that might not have been obvious at the outset. Discuss the success of the approach you adopted and the academic objectives you achieved. Avoid meaningless conclusions, [e.g. NOT “I learnt a lot about C++ programming”]. Be realistic about potential future work. Avoid the dreaded: “All the objectives have been met and the project has been a complete success”. You have to crisply state the main take-away points from your work. Describe how your project is performed against planned outputs and performance targets. Identify the benefits from the project. Be careful to distinguish what you have done from what was there already. It is also a good idea to point out how much more is waiting to be done in relation to a specific problem, or give suggestions for improvement or extensions to what you have done.

Future scope of the work for improvement may also be included

Appendices

< Times New Roman, Font 12, Bold>

Appendices are provided to give supplementary information, which is not included in the main text may serve as a separate part contributing to main theme.

- Appendices should be numbered using Arabic numerals, e.g. Appendix 1, Appendix 2 etc.
- Appendices, tables and references appearing in appendices should be numbered and referred to at appropriate places just as in the case of chapters.
- Appendices shall carry the title of the work reported in it and the same title shall be used in the contents page also.
